
The Book of Psychology by Rakhshanda Shahnazl is a book that has been written to fill some gaps in the field of psychology by doing its best to meet the requirements of the students who are looking for good books on this topic. It has been created in such a way that each chapter makes sense and gives you what you are seeking in terms of information, whether it is insight into how people form relationships or why our bodies react when they do. It does not have any opinionated views on anything, but rather provides an overview so that readers can decide for themselves what to believe and if they fall under any category or not. Each chapter contains a variety of information about each topic, making it an interesting read. It also includes some extra-help, such as the 'Concepts of Psychology' table where I've listed some common concepts that are used in psychology, as well as some extra pearls of wisdom that are useful to know about. Some of the chapters are also broken down into sub-sections which are very easy to read and provide you with even more info. This is something I hope makes this book even more enjoyable for you. It is not an exact copy of the syllabus, but it's grammatically correct so that you can actually use it in your studies or lectures without any problem. I've actually created this book in hopes that it will encourage you to study psychology in general. I myself am a psychology student and I wanted an excuse to write it (it was for my dissertation). If you are looking for insight or inspiration in this field, I strongly recommend reading this book.

"I've only gained interest in the field of Psychology due to studies of how each person's psychological processes can affect his/her perception and overall life" - Amina Aleem, Business Administration Student at the University of Westminster, UK - March 2013. Rakhshanda Shahnazl graduated from the University of Westminster in London in 2013 with a 2:1 BA (Hons) in Psychology and Sociology. She also served as the President and Honorary President for "BPSU" (British Psychological Society University). She always has her pencil and paper close-by to make notes on subjects she may want to expand on later. She loves fashion, music, psychology and animals. Rakhshanda also loves travelling and spending time reading wherever she is, such as at the beach or travelling by train through Europe.

If you have any questions/comments/feedback please contact me at: rakhshandashahnazl@outlook.com I love feedback, so please feel free to leave any feedback. If you have any questions or comments please feel free to contact me via e-mail or on my blog. I always reply to all my followers and reviews. Although this is not a requirement of the course, you are strongly encouraged to listen to this list before arriving at your college for the first day of classes!

"This Book Will Help You To Understand Psychology." - Sharmin Kabir, New Zealand Business Manager at Human Solutions Ltd - March 3rd 2013 - <http://www.humsolutionsltd>.
